

# THE PAPER TITLE SHOULD BE IN UPPERCASE 14-POINT BOLDFACE TIMES NEW ROMAN FONT

**First Author<sup>1</sup>, and Second Author<sup>2</sup>**

<sup>1</sup>*Name of Faculty/Center/Department, Name of University, Country Name*

E-mail: author\_mail@university.edu.my

<sup>2</sup>*Faculty of Computer Science and Information Technology, Universiti Selangor, Malaysia*

E-mail: author2\_mail@university.edu.sg

---

## Abstract

*The abstract is to be in fully-justified italicized text as it is here, Use the word "Abstract" as the title, in 10-point bold, Times New Roman, left-aligned relative to the column. Abstracts is to be written in 9-point, bold, Times New Roman single-spaced type, preferably not more than 250 words. Do not include literature citations or references to tables, figures, or equations.*

*Keywords:* No more than five keywords

---

## 1 INTRODUCTION (11pt bold)

This template is designed to help you in preparing your manuscript in expected format. The guidelines include complete descriptions of the fonts, spacing and related information for creating your proceedings manuscripts. Please follow them properly.

## 2 MAIN SECTION-I

Use this document as a template by simply typing your text into it.

### 2.1 Page Layout (10pt)

Use 8.27 inch (210mm) x 11.69 inch (297mm) paper. The margins must be set as:

- Top = Bottom = 0.9 inch
- Left = Right = 0.6 inch

The paper must be in a two column format of width 3.4 inches with a space of 0.27 inches.

## 3 MAIN SECTION-II

All paragraphs must be indented and justified.

### 3.1 Font of the Manuscript

The entire manuscript should be in Times New Roman. Other font types may be used if required only for special purposes. Refer to Table 1 for font sizes.

TABLE 1. All Font type must be Times New Roman

Item	Font	Justification
Paper Title	14pt bold uppercase	Centered
Author(s)	11pt bold	Centered
Author affiliation	10pt italic	Centered
Author e-mail	10pt	Centered
Abstract contents	9pt italic	Justified
Keywords content	9pt	Left
First order heading	11pt bold uppercase	Left
Second order heading	10pt	Left
Third order heading	10pt	Left
Body	10pt	Justified
Table title	10pt	Left
Figure title	10pt	Centered

### 3.2 Author Details

Author name must be in 11pt bold with 11pt above. Author affiliation must be in 10pt italic. E-mail address must be in 10pt. Professional positions/titles such as Research Scholar, Professor, Dr., Managing Director, Senior Member IEEE etc., are to be avoided. Each affiliation must include, at the very least, the name of the company and the name of the country where the author is based.

### 3.3 Sub-section Headings

A maximum of 3 level headings should be used. Every word in a heading must be capitalized except for prepositions and conjunctions.

#### 3.3.1 First Order Heading:

A First order heading must be 10pt bold, Times New Roman, left justified and numbered (1,2,3,...). Each word must be capitalized except prepositions and conjunctions.

#### 3.3.2 Second Order Heading:

A Second order heading must be 10pt bold, Times New Roman, left justified and numbered (2.1, 2.2, 2.3,...). Each word must be capitalized except prepositions and conjunctions.

#### 3.3.3 Third Order Heading:

A Third order heading must be 10pt bold, italic, Times New Roman, left justified and numbered (3.2.1, 3.2.2, 3.2.3,...). The first letter of each word must be capitalized except prepositions and conjunctions. It must end with a colon.

### 3.4 Figures and Tables

Each table should have its own short title above the table and right after the number of the table. Tables are numbered consecutively from the beginning of the article. In general, tables should fit within one column of the two-column format. However, it is acceptable on occasions, to make the table cover the entire width of the page.

Figures include pictures, drawings and graphs of the article. Just like tables, figures are numbered sequentially. However, the titles for figures are BELOW the figure (unlike tables). Figures may also be of such a size that they cannot fit within a column of the two-column format. If that is the case, then the figure may spread across the page. Figures should appear within the body of the article in close proximity to the text that is referred to.

FIGURE 1. A Sample Chart

Clearly label all graphs with proper units, axes titles, and scales. Check that the resolution is adequate to reveal the

important detail in the figure. Please check your paper on a black and white hardcopy and ensure that the images used are clear and all text labels are legible. Captions of a single line must be centered whereas multi-line captions must be justified.

#### Note:

- A copy of tables and figures which are used has to be sent separately along with the soft copy of the manuscript (with figures and tables).
- All the figures must be in either Grayscale or Black & White (preferably) for the printed version. However, it does not concern for e-journals.

### 3.5 Equations

Each table should have its If you are using Microsoft Word, use Microsoft Equation Editor for equations in your paper. The equations must be centre aligned. Number equations consecutively with equation numbers in parentheses flush with the right margin, as in Eq.(1)

$$c = a + b. \quad (1)$$

Be sure that the symbols in your equation have been defined before the equation appears or immediately following. Italicize Roman symbols for quantities and variables, but not Greek symbols. Use parentheses to avoid ambiguities in denominators.

### 3.6 Citations

All sources cited in the text must be listed in the References. As the purpose of referencing is to acknowledge the source and to enable the reader to trace the sources, reference data must be accurate. The reference list should be ordered alphabetically by author family name. References with no author are ordered in the reference list alphabetically by the first significant word of the title.

## 4 CONCLUSION

The A conclusion might elaborate on the importance of the work or suggest applications and extensions. Authors are requested to ensure that best efforts are made to retain the appearance of their manuscripts in the given template. Papers not in accordance with these guide lines and manuscripts with number of mistakes will have to be rejected. The editorial committee may make some limited changes in the manuscript if needed.

### APPENDIX (11pt bold)

Appendixes, if needed, appear before the acknowledgement.

### ACKNOWLEDGMENTS (11pt bold)

Any acknowledgement should be placed here. You may wish to thank those who have supported you and your work.
